

Hat: to determine your hat size, measure the circumference of your head using a tape measure. The measurement should be taken at the widest part of your head, just above the ears

Neck: measure around base of neck

Sleeve: measure from the center back of neck, along the length of your arm and down to your wrist

Chest: measure around the largest part of the chest

Waist: measure around waist at narrowest point

Inseam: measure from base of crotch, along the inside of leg and down to your ankle
