ABOUT CLASSIC FIT

Built for comfort and movement in mind. The classic fit has slightly more room in the chest and body with fuller arms for added comfort.

WHAT SIZE SHOULD I BUY?

Refer to the size chart above to match your body measurements to the proper size. If you're in-between sizes you can likely size down if that's your preference.

THE IMPORTANCE OF LAYERING FOR COLD WEATHER FISHING

Layers work as a SYSTEM to keep you dry which keeps you comfortable.

MOISTURE is the enemy. Each layer has a vital, SPECIFIC function, ultimately transporting moisture from core to surface layer. BASELAYERS (1st layer-next to skin) are designed to keep sweat and moisture away from the body so that it will evaporate and keep you dry and comfortable.

THERMAL layers (2nd layer) insulate and enhance warmth.

OUTERWEAR (3rd layer) repels wind and water.

ACTIVITY LEVEL, WEATHER and TEMPERATURE influences the system- layers may be added or removed as needed.
